

How to Sync (or Pair) your CP-TEL Remote Control to your TV

1. Stand near your TV
2. Hold down the RCU button until the white TV button blinks twice
3. Enter 9-9-1 on your keypad and the TV button will blink twice again
4. Press the power button (your TV shouldn't turn off)
5. Press the channel up button until your TV turns off
6. Press the power button again to turn on your TV
7. Press the RCU button to finalize your setup
8. Press the STB (Set Top Box) button to control your channel selection and volume
